

Print-on-demand in situ

Multidisciplinary design studio LUST organised on 20.03.08 a mini-workshop where invited participants from different disciplines (Martijn van Boven, Catalogtree, and NEXT Architects) are bound in collaboration for one day to produce a 'publication' representing the convergence of their ideas. The process and the results will be presented and discussed with the public that same evening.

This edition of the Ongoing Series is an experiment in exploring new pathways for design at the precarious edge where new media and information technologies, architecture and urban planning and graphic design overlap.

Participants:

Martijn van Boven

Catalogtree (Daniel Gross, Joris Maltha)

NEXT Architects (Michel Schreinemachers)

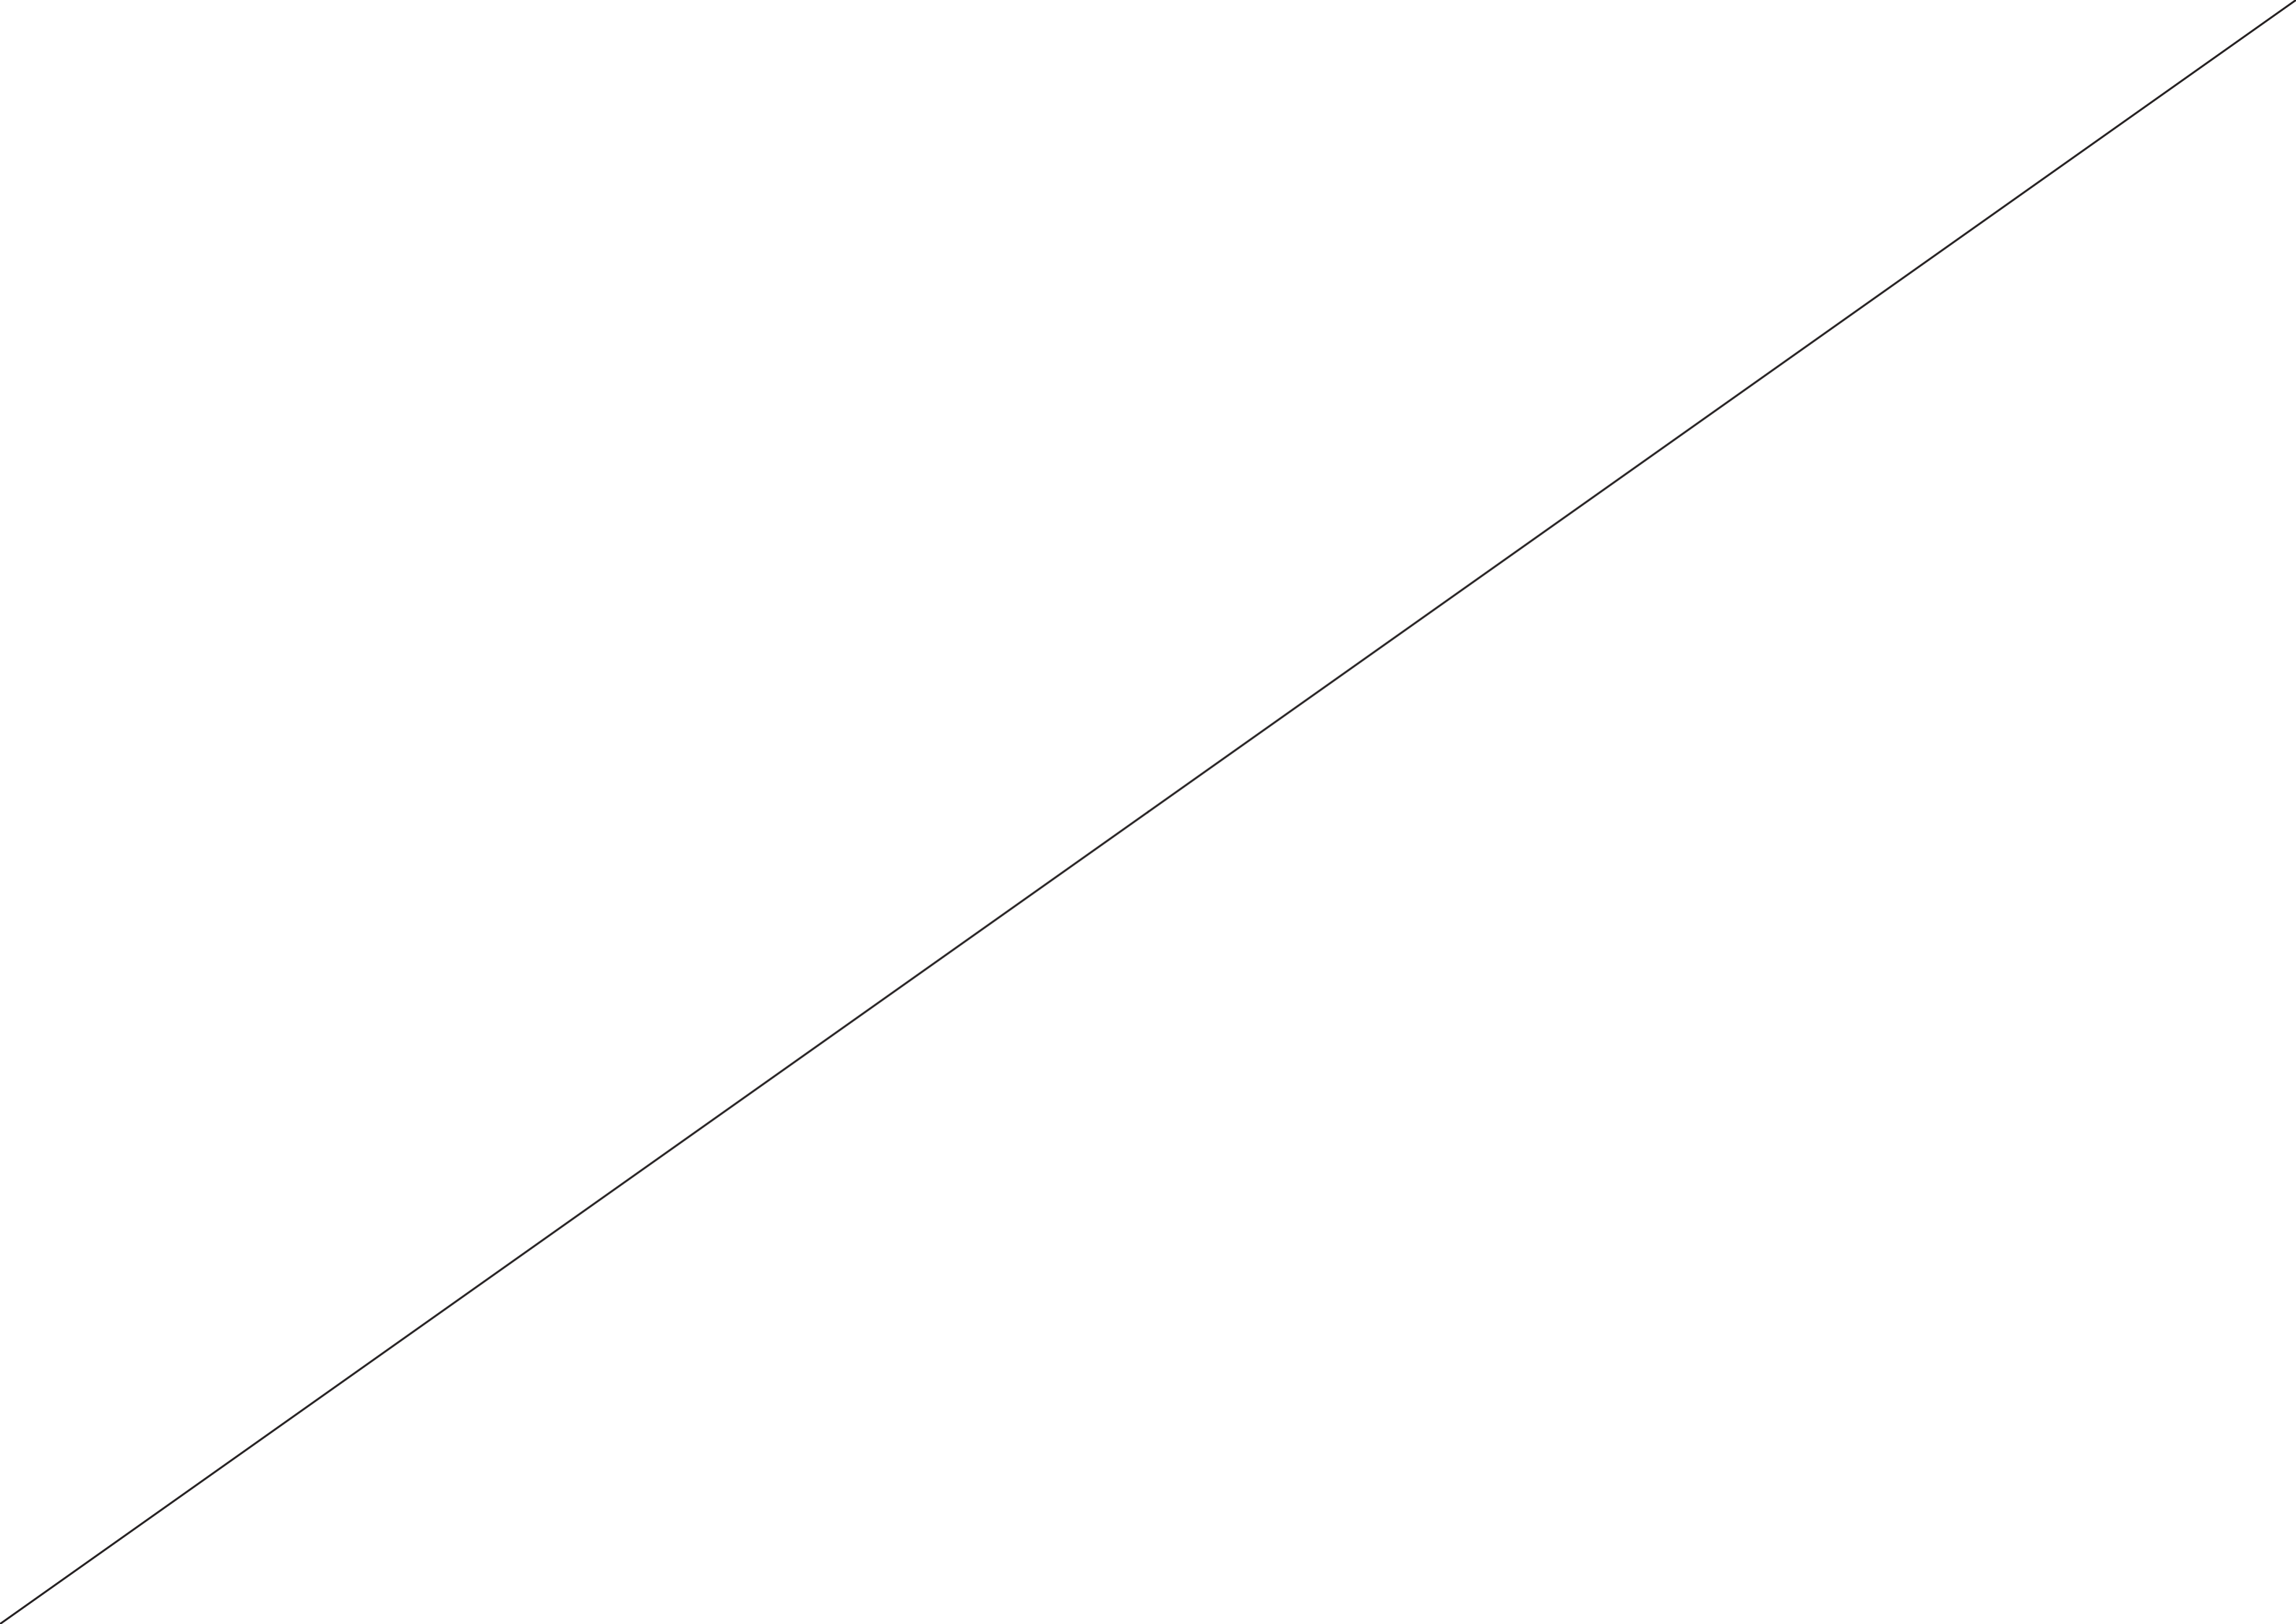

LUST (Jeroen Barendse, Thomas Castro, Johanna Bayerlein)
